

Kenneth D. Mandl, MD, MPH

Associate Professor, Children's Hospital Boston | Harvard Medical School, Harvard-MIT Health Sciences and Technology

Kenneth D. Mandl, MD, MPH is an Associate Professor at Harvard Medical School and Director of the Intelligent Health Laboratory at the Children's Hospital Informatics Program in Boston Massachusetts.

A pioneer in both consumer informatics and population health monitoring, Dr. Mandl has innovated and published extensively in the areas of personally controlled health records, disease outbreak detection, public health surveillance, and national health information infrastructure. Recognized for his teaching and research, he has received the Barger Award for Excellence in Mentoring at Harvard Medical School and the Presidential Early Career Award for Scientists and Engineers, the highest honor bestowed by the United States government to outstanding scientists and engineers. Mandl co-directs a CDC Center of Excellence in Public Health Informatics. He works with the FDA to translate biosurveillance approaches to pharmacosurveillance. He has been confirmed by the Secretary of Health and Human Services as member of the Advisory Committee to the Director of the CDC. He is also a faculty member of the Harvard Medical School Center for Biomedical Informatics and affiliated faculty at the Harvard-MIT Division of Health Sciences and Technology.
